

RING SIZE CHART

For accuracy, please ensure that page scaling is set to 100% in your print settings and use 8.5 x 11-inch standard paper.

Measure your ring using the Ring Size Chart

Use a tape measure or ruler to double-check that the chart is precisely to scale. You can use it to measure your ring size first so that you know it is accurate. Move the ring from circle to circle until you find the best match for the ring's inside circumference. If the ring lands between two sizes, always choose the larger one.
